

Christmas Newsletter 2025

from

LITHIUM LOGI⚡TICS

**We wish all of our customers, suppliers & everyone new
and old an enjoyable Christmas and New year
Driven by reliability. Powered by trust.**

Our Journey So Far

From inception our ethos has been to work with the best companies, to supply the best logistics services in the market and to deliver dependable, cost-effective, professional transport services tailored to modern businesses.

In a year when all we have heard in the media is doom and gloom we have worked hard to carry on building our brand, we have done this by investing in new equipment, training and being involved, which has resulted in being trusted by clients across the UK. Every mile has been powered by our commitment to excellence, integrity, and customer satisfaction.

To explain what we offer and why we stand apart from other logistics providers, it's important to recognise that every organisation operates differently. Each business has its own challenges, priorities, shipment patterns, and customer expectations.

Because no two businesses are the same, we've designed our services to be fully adaptable. Rather than offering rigid, one-size-fits-all solutions, we provide a broad portfolio of flexible and scalable transport options that can be tailored precisely to your operational needs.

Whether you require rapid same-day deliveries, scheduled multi-drop routes, support during seasonal peaks, or integrated transport solutions to streamline your entire supply chain, we work alongside you to build the right approach. Our focus is on reliability, transparency, and efficiency—ensuring your goods move exactly when and how you need them to, while giving you complete confidence in every step of the process.

Our Commitment to compliance and safety

With our dedicated professional workshop, we guarantee our vehicles meet and exceed all compliance standards and are maintained for maximum reliability.

Picture to the left, One of our workshop engineers using our new Manitou “cherry picker” to safely perform routine maintenance on one of our curtain-side trailers.

Pictured below, one of our units in the workshop for a Fuel system overhaul, to help reduce CO2 emissions and improve fuel performance .

Road safety is paramount to us.

All of our staff are FORS trained, Undertake regular CPC (certificate of professional competence) training and we have twice yearly audits with the RHA to ensure we are not only compliant but can take pride in our commitment to road safety.

We are proud members of the following professional organizations.

News about the team!

A big well done to.

Connor for passing his Transport managers CPC exams.

Joe for Passing his HGV Class one licence

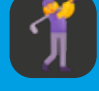

Dennis and Thomasz for passing their Hazardous good training.

Josh, Colin and Tomasz for passing their Manitou lorry loader training

Event Logistics You Can Rely On

In just the last 12 months, we've proudly delivered logistics for some of the UK's biggest events, including:

-  Stereophonics-Principality Stadium
-  Oasis Concert – Principality Stadium
-  Glastonbury Festival
-  Isle of Wight Festival
-  Women's Golf Open – Royal Porthcawl
-  Boardmasters – Newquay

From music megastars to world-class sporting events, we keep things moving safely, smoothly and on time!

We Don't Just Hire Drivers. We Build a Team of Delivery Specialists.

At Lithium Logistics Ltd., our people are more than drivers – they're Delivery Specialists.

Our drivers don't back away from a challenge. They back into them!

They deliver:

-  Precision
-  Professionalism
-  Peace of mind

From high-profile events to everyday logistics, our team goes the extra mile – literally and figuratively.

This year alone we have invested over £550,000 in new equipment!

3 New Euro 6e DAF Trucks

4 New Trailers from SDC

1 New Electric forklift from Toyota

1 New Manitou “cherry picker”

At Lithium Logistics Ltd we don't just move goods – we move what matters most to you

Statistics,

- Did you know our trucks average two trips around the world each year.
- Each truck delivers an average of 6000 tonnes of products that keep our country going each year.
- Our drivers spend an average of 5000 hours away from home delivering our customers products.

on time, intact, and ready to shine.

**Looking for a logistics partner that takes
transport seriously?**

**Or ready to join a team where your skills are
truly valued?**

We handle the deliveries others won't.

**When it has to get there,
no matter what — trust
Lithium Logistics Ltd.**

Thank You for a Great Year!

**We wouldn't be here without our amazing
customers, dedicated team, and supportive
partners.**

**Here's to continued growth, innovation, and
many more successful miles ahead.**
